THE

South-Carolina Gazette.

Containing the freſheſt Advices Foreign and Domeſtick.

From Saturday, June 8, to Saturday, June 15. 1734.

To Mr. Lewis Timothy.

SIR,

THE incloſed I received by the Pilot-Boat, and thought it a pity not to publiſh it, to do Juſtice to a young Perſons firſt Endeavour of this kind, and to divert thoſe whoſe Candor are willing to allow Merit its due Praiſe. As to the Envious, who allow nothing praiſe-worthy but what is collected by their dear ſelves, it perhaps may employ 'em ſo as to keep 'em from injuring ſome Perſon that deſerves well from them, which, that it may, is the ſincere Wiſhes of

June 7, 1734. *Your humble Servant,* FLAVIA.

FRom fair Cypris's Fane I'm forced away
By the rough God of the tempeſtuous Sea,
Fair and unkind, like her for whom I die,
Æolus lets the Northern Breezes fly:
Then all our Canvas-wings were ſpread to bear
My unwilling ſoul from all that's good and fair.
Thus to the Main, before the dancing wind,
Our Albrough fled, and left my hopes behind.
With longing eyes I ſtill ſurvey the place,
Which my fair *Flavia* with her Beauties grace,
Nor once from thence my ſtedfaſt ſight withdrew,
Till *Carolina* was no more in view.
Farewell, ſaid I, dear charming Maid! with thee
Each chearful proſpect vaniſhes from me.

But to relate the pain my heart alarms,
When abſent from my *Flavia's* heavenly charms,
The beauty of her face I might as well
As their effects on me attempt to tell.
None but my fair Tormenter can conceive
(Whoſe blooming beauty all thoſe pains do give)
The thouſand deaths her amorous glances leave.
Muſt then thoſe Eyes, which heav'n ordain'd to prove
The force of beauty and the power of love;
Muſt they with ſoft deluding pain impart
Such dear deſtruction to my bleeding heart?
O be as kind, bright Nymph, as thou art fair!
And free thy Captive from forlorn deſpair:
For at thy ſmiles pale horror wings her flight,
As the bright morn' diſpells the darkſome night.

FOREIGN AFFAIRS.

LONDON, Feb. 16.

On Sunday a Petition was preſented to the King ſigned by the Debtors in the Fleet Priſon, on behalf of themſelves, and many thouſands more confined in ſeveral of his Majeſty's Goals, praying to be diſcharged upon delivering up all their Effects to their Creditors, or to give them ſuch other Relief, as his Majeſty in his great Wiſdom ſhould think fit; and his Majeſty was graciouſly pleaſed to refer the ſaid Petition to his Secretaries of State.

Thurſday laſt 900 Head of Oxen were killed at the Victualing Office on Tower-Hill, for the Uſe of the Fleet now fitting out for Sea-Service, and on Monday 500 more to the like Purpoſe.

We hear that 13000 extraordinary Land-Forces will be employ'd for the Service of the current Year. And that

Sir John Norris will be created a Peer of Great Britain.

From Warſaw, we hear the Diſtreſs of that Kingdom is inexpreſſible; the Miſeries of the Sword it has already experienced, thoſe of Famine make long Strides towards them, and they have too much Reaſon to apprehend that Peſtilence may follow; the Grandees of different parties continue ravaging each others Eſtates, and the *Poliſh* Armies harraſs the *Ruſſians* without ceaſing, but avoid coming to a Battel. News however is juſt arrived that a Party of 600 *Muſcovite* Dragoons accidentally falling in with the Crown Regimentary *Potocki* in a narrow Place, attack'd his Army to ſo great an Advantage, that he was obliged to retire.

The Commiſſioners for victualling his Majeſty's Navy have agreed to have 4000 head of Oxen killed at the Victualling Office at Dover, and they have begun to kill the ſame, which gives great joy to the Inhabitants of that Town, that Office not having been made uſe of many Years.

They write from *Paris*, by a Holland Mail this Day, That they expect a bloody Battel in Italy; Count Mercy (as they ſay) having poſitive Orders to hazard a Fight with the Allies, let the Conſequence be what it will.

Prince

Prince Eugene has declared his Reſolution, to make the Campaign on the Rhine, and his Equipage is to be got ready by the End of this Month; and the great Expectation is now to hear, how the Diet of Ratisbone will Comport, touching the Imperial Decree for a Declaration of War againſt France.

Yeſterday Morning Orders were iſſued from the War Office for the Serjeants and Corporals of the three Regiments of Foot-Guards to repair into the Country to raiſe Recruits, for the Augmentation of 10 Men in each Company of the ſaid Regiment.

We are credibly informed, that his Grace the Duke of Chandos will be declared Lord Lieutenant of Ireland upon the Return of the Duke of Dorſet from that Kingdom, and that the Right Hon. the Lord Malton will ſucceed the Duke of Chandos on the Expiration of his Grace's Term.

On Sunday Night arriv'd an Expreſs from Mr. Finch, Reſident at the Hague; with Adviſe that the States-General had reſolved, and were above all things deſirous of acting in concert with the Britiſh Nation, in regard to the Meaſures to be taken in the preſent Conjunctures of the Affairs in Europe.

Affairs Abroad are in ſuch a Situation, as muſt needs alarm us, and put us upon a State of Defence at leaſt; for which Purpoſe, our Naval Preparations are ſo extraordinary, as perhaps may in a little time alarm our Neighbours. A great Number of Ships of War (the beſt in the World) being Careened, and the beſt in great forwardneſs; and Drums continue to beat up for Volontiers with good Succeſs; but if this method does not anſwer, that of Impreſſing Men will ſoon take Place: And, if a War ſhould happen 'tis believed the Spaniards will be remember'd for their late Treatment towards us in particular; People's Reſentiments againſt them run very high. However, theſe are Things which muſt be left to the Direction of our Superiors, and a Time proper for ſuch Buſineſs.

Hague, Jan. 29. We have Advice here, that the Muſcovites have made themſelves Maſters of *Thorn*, and that there was a great Conſternation at Dantzick, on their ſo near Approach to that City.

Extract of a Letter from Oporto, Jan. 7.

The Regiſter Ship Santiſſima Trinidad, alias St. Jaco, from the Havanna, is arrived at Vigo, with a Cargo of Cochineal, Cocoa, Sugar, Snuff, and about 2,000,000 of *Pieces* of Eight, which ſhe unloads there. She brought about 200 Paſſengers. In the Gu... ſhe narrowly eſcaped from being loſt, but an Engliſh *Sloop*—*Peider* Maſter, piloted her through, & was herſelf unhappily loſt, & the Crew periſhed. A large Dutch *Ship* was lately loſt near Villa de Conda.

Dantzick, Feb. 6. The Treaty for the Receprion of King Staniſlaus's Troops into our Fortification, is ſigned by King Staniſlaus, and our Magiſtrates, and guaranty'd by France.

Paris, Jan. 16. The 14th in the Afternoon, the King received Advice, by the Marquis de Fimaacon, who was diſpatched to his Majeſty by the Marſhal de Villars, of the Taking of Novarra, and the Fort of Arrona.

Warſaw, Jan. 26. King Staniſlaus's Friends give out, that as ſoon as there is Graſs upon the Ground, the whole Nation will appear on Horſeback to join the Regular Troops, and drive the Saxons and Muſcovites out of the Kingdom. Both Parties ſeem more exaſperated than ever againſt each other; ſo this is likely to prove one of the moſt cruel Civil Wars that ever was known.

LONDON, *Feb.* 25.

They write from the Hague, that the States General have ordered their Troops to be immediately augmented with 10,000 Men; and have likewiſe ordered 12 Men of War to be fitted out with all proper expedition.

Yeſterday the Lords of the Admiralty were pleaſed to order 18 Sail of Ships to be got ready for Sea ſervice as expeditiouſly as poſſible, among which are the Britania, 112 Gun Ship, and 17 other Ships of the Line.

The Ships before put in Commiſſion have received orders to get manned as ſoon as poſſible, and to receive all Hands that come to enter on board.

Great Numbers of Land, as well as Sea-Officers arrive daily in Town from ſeveral Parts of England, ſome in Expectation of being employ'd, and others of being better provided for.

This Morning about 120 Felons were carried from Black-fryers Stairs, in a cloſe Lighter, to Woolwich, in order to be put on board the Cæſar, now lying there, which Ship is to tranſport them to his Majeſty's Plantations in America.

We hear that Orders have been iſſued from the War Office, to all the Colonels of his Majeſty's Regiments of Horſe, Foot and Dragoons requiring them to complete their reſpective Regiments with all proper Expedition.

'Tis ſaid that the Land Tax will be only 2 s. in the Pound for the enſuing Year, that no new Taxes will be levy'd on the Subjects, and that the Navy and other Deficiencies will be made good out of the ſinking Fund.

Boſton, April 1. We hear from Norwich in Connecticut, that Mr. Fairchild a Butcher belonging to Rhode-Iſland, as he was paſſing thro' that Town, on the 26th of *Feb.* with a Drove of Cattle, and riding apace after them, his

his Horſe fell down, and by a moſt unhappy Turn, upon his Breaſt and Bowels, which gave him ſuch a Mortal Wound that (after all means uſed to ſave him) he died Yeſterday, and this day was decently buried.

Extract from the Votes of the Hon. Houſe of Repreſentatives.

Sabbati 16 Die *Februarij*, A. D. 1733.

Capt. *Howard* from the Committee appointed yeſterday, on the Memorial of his Honour the Lieut. Governor, Captain of his Majeſty's *Caſtle William*, made Report which was read and accepted; and *Voted*, That ſome Addition of Pay be made to the Officers and Soldiers, in order to encourage able bodied Men to inliſt into the Service, and that at the next Eſtabliſhment Proviſion be made with a ſuitable Bounty for a new Enliſtment, and likewiſe the Gunner (when his Excellency appoints one) have ſome Encouragement given him to inſtruct the Quarter-Gunners, Serjeant, Corporal and Soldiers the Art of traverſing, levelling and pointing the Great Guns, ſo that whenever the Caſtle ſhall be attack'd, a ſufficient Number of Gunners may be at Hand to manage and direct the Soldiers which his Excellency ſhall think proper to ſend to the Caſtle upon ſuch an Occaſion; and for the better training and inſtructing the ſaid Garriſon in the Art of traverſing Great Guns, that a Number of Great Guns with Shot be allowed to be fired at a Mark once a Month at leaſt. Sent up for Concurrence.

Boſton, April 2. On Tueſday laſt the Inhabitants of this Town met, according to Adjournment, when the Scheme for *Regulating the Market* was Read, and after a conſiderable Debate, voted and eſtabliſhed, and the ſame is to be preſented to the Court of General Seſſions of the Peace for the County of *Suffolk*, at their next Meeting, for their Approbation. The Meeting was further adjourned to Friday the 29th.

The ſame Day an unlucky Accident fell out at *Stoughton*, *viz.* The Inhabitants of that Town having been Training, and being diſmiſſed, ſeveral of the young Men fired their Guns in a very diſorderly Manner, ſtriving who ſhould make the loudeſt Report: and *Wm. Colewel* being very deſirous to out-do the reſt, put into his Gun, as we are told, near a Quarter of a Pound of Powder, which in firing ſplit the Barrel to Pieces, ſetting Fire to a Horn of Powder in his Pocket, which flew in Pieces, and wounded him and another Man in ſo terrible a Manner, that 'tis queſtioned whether they will recover or no. It's ſaid one of them has not ſpoke a Word ſince the Accident happened. Several others were wounded by the Spliuters which flew from the Gun.
